ANTARES MANAGED MODERN WORKPLACE

Not-For-Profits

Technology that Connects Your People to their Purpose

Your team chose the not-for-profit sector to make a difference. They shouldn't spend their day hunting for policies, waiting for IT support, or frustrated by technology that gets in the way.

Antares Managed Modern Workplace transforms your existing Microsoft 365 into a digital workplace where your people can find what they need, when they need it – and feel genuinely connected to your mission & each other.

The NFP Workplace Challenge

You're already paying for Microsoft 365.
But without the right structure and support

- * Staff and volunteers waste hours searching for information
- * Knowledge lives in people's heads or scattered folders
- * Teams work in silos, duplicating effort
- * IT and admin teams are overwhelmed with basic questions
- * New starters struggle to get up to speed
- * Remote & frontline workers feel disconnected

The Results

Lower productivity, higher frustration, and mission impact at risk.

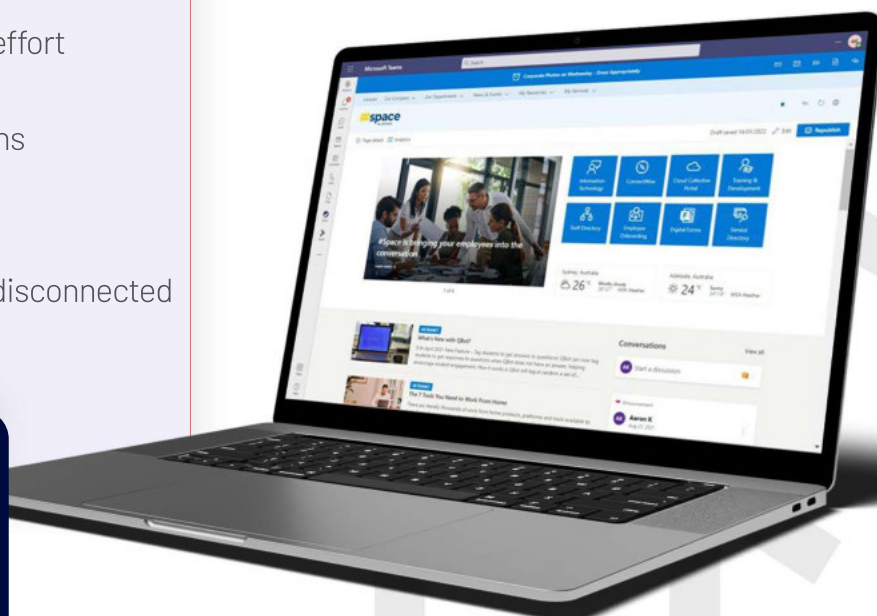

A workplace that works for your people

We build a modern digital workplace using the Microsoft tools you already have – then manage it ongoing, so you can focus on your mission.

Your organisation's home base
#SPACE Intranet

A simple, modern SharePoint intranet that becomes everyone's starting point

- * Find anything in seconds
Policies, procedures, forms, templates, all in one logical place
- * Stay connected
Organisation news, team updates, and mission stories that build community
- * Work from anywhere
Seamless access on desktop or mobile for office, remote, and frontline staff

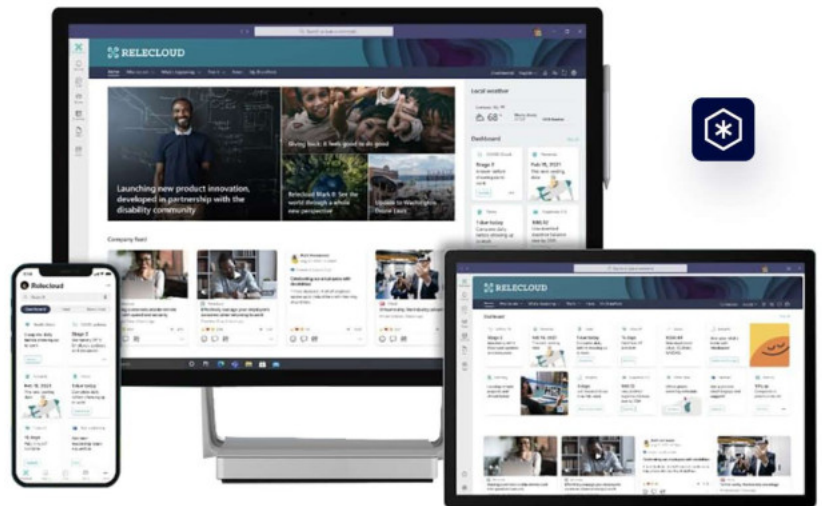

No more

"Does anyone know where the _____ is?"

It's always there, always findable.

Meet people where they work

Responses are AI generated and can be inaccurate, consider checking answers received

Every workplace includes an AI assistant trained on your organisation's information

* For Your Team

"What's our volunteer onboarding process?" – instant, accurate answer

"Show me the safeguarding policy" – direct link, no searching

"How do I submit an expense claim?" – clear guidance immediately

* For Your Organisation

Reduced burden on IT, HR admin teams

Consistent answers aligned to approved content

New staff & volunteers get up to speed faster

More time for mission-critical work, less time answering the same questions

AI is secure, governed, and trained only on approved information. It assists your people – it doesn't replace them.

Control Without Bureaucracy Teams Governance

Give your teams the freedom to collaborate whilst maintaining control

- * Structured Teams creation with templates
- * Clear ownership & lifecycle management
- * Reduced duplication and compliance risk
- * No more "ghost Teams" or information chaos

Perfect for NFPs with limited IT oversight but high collaboration needs.

Protection You Can Trust Backup & Recovery

Safeguard your critical information

- * Protection against accidental deletion and data loss
- * Support compliance requirements and Board assurance
- * Peace of mind for executives and trustees

Ongoing Managed Service We Run It With You

This isn't a "set and forget" deployment. We actively manage your workplace

- * Formal service desk with SLAs
- * Continuous platform optimisation
- * Regular improvements to intranet, AI, and governance
- * Proactive support and monitoring

Why NFPs Choose Antares

Employee satisfaction through better experience

When people can find what they need and feel connected, they're more engaged and effective

Build community with existing tools

Unlock the collaboration and connection capabilities already in your Microsoft 365 licensing

Scales with your mission

Grows as your organisation grows

Predictable, NFP-friendly costs

One deployment fee, then affordable monthly managed service. No surprise projects or "essential extras"

AI that works from day one

Not a future project, but immediate value for your team

Lower organisational risk

Governance, backup, and compliance built in, not bolted on

Designed for limited IT capacity

We bring the expertise you don't have in-house

Who This Is Designed For

- * Not-for-profits with 50–500 staff or volunteers
- * Organisations without dedicated Modern Workplace or AI specialists
- * Boards seeking measurable value and governance control
- * Leaders concerned about information chaos, compliance risk, or knowledge loss
- * Teams that want technology to support their mission, not distract from it

Simple Commercial Model

One deployment fee to configure and launch your workplace. Then one affordable monthly service that includes

- * Modern intranet (#SPACE)
- * Viva Connections in Teams
- * AI assistant configured for your organisation
- * Teams governance
- * Backup and protection
- * Ongoing managed service and support

No large transformation programme | No fragmented vendors | No complex licensing puzzles.

Next Step

30-minute NFP Modern Workplace & AI Consultation

we'll discuss

- * Your mission and current workplace challenges
- * How we'd configure the intranet, AI, and governance specifically for your organisation
- * A clear deployment timeline and monthly service proposal

Your people deserve technology that helps them do their best work. Let's build that together.
